# TECHNICAL DATA SHEET

## ISO 1 METAL DRAWING OIL

### Description:

FUKKOL ISO 1 is specially designed for high temperature and high pressure metal plastic. The chlorinated paraffin has excellent lubrication. Deep oil can reduce the production of heat. Therefore, it prevents the fracture of the workpiece or discoloration due to high temperature. Therefore, it can avoid metal stripping and drawing, and it has anti welding function. It can reduce friction

and can improve. Product quality and lengthening tool life.

### **Purpose :**

For medium to high difficulty stretching operations of ferrous metals such as stainless steel.

### Performance characteristics :

- Widely applicable to high speed steel and stainless steel alloy, etc.
- Suitable for medium to high difficult metal stretching operation
- Reducing cracks in metal stretching
- Prolonging tool life
- Non volatile

Products Code	Packings	Capacity
I100197-4L	Can	4L
I100197-18L	Pail	18L
I100197-200L	Durm	200L

### Typical Physical Properties:

Appearance:	Clear red liquid
Odour	Mild
Density	0.95g/cm <sup>3</sup>
Flash Point	>170°C
Viscosity /s, 40 °C )	170-230 (mm <sup>2</sup> /s)

Matters needing attention:

1. Pay attention to sealing and preserving oil products
