

HEAVY DUTY DEGREASER

1. Chemicals and corporate identity

Product identification	FUKKOL HEAVY DUTY DEGREASER
Product number	51168
Suppliers	KALEN INTERATIONAL LTD Hongkong Kowloon New Po Kong Fong Street No. 10 new treasure Center Building 1 room 6 words
Emergency telephone	+ 852-2420 2444
Fax	+ 852-2485 1418
Manufacturer	KALEN LUBRICANTS TECHNOLOGY (HUI ZHOU) LTD.

2. Risk overview	
EU standard classification	F; R11 Xn; R65 Xi; R38 R67
B 13690-92 Classification of common dangerous chemicals	Class 2.2 non-flammable liquids
Physical / chemical hazard	The material releases steam to form a combustible mixture of gases, which can ignite or explode if ignited. The accumulation of static electricity in the substance may cause a fire to discharge.
Health hazard	Harmful: If endocytosis can cause damage to the lungs. Steam can cause drowsiness and dizziness. It may stimulate the eyes, nose, larynx, and lungs. May cause depression in the central nervous system.
Environmental hazard	It is harmful to aquatic organisms and may cause long-term adverse effects on aquatic environment.

Printed in CHINA.

Flame burst hazard	Combustible goods	0
Danger sign		
3. Composition		
Ingredients	CAS #	Proportion
Organic matter	127-18-4	97.0 -99.0%
Carbon dioxide	124-38-9	1.0 - 3.0%
4. First aid measures		
Inhalation	Using appropriate respiratory prote will be transferred immediately, breathing, artificial respiration she the rest is maintained and the medica time	if the patient stops ould be carried out, and
Skin contact	Wash the place with soap Take off contaminated clothes. Contam washed with soap and water	ninated clothes should be
Eye contact	To wash the eyelids, with the flow of medical assista	
Eating	If the victim is lighter, drink 2-4 If the victim has lost consciousness immediately。	-

5. Fire control measures	
Fire Extinguisher	Use foam, dry chemical reagent (dry powder), or carbon dioxide (CO2) fire.
Hazardous combustion products	Hydrogen, chloride, some phosgene.
Printed in CHINA.	The information in this publication is based on our experience and reports from customers. There are many factors outside our control and knowledge which affect the use and performance of our products for which reason the information in this publication is given without responsibility.

Date of revision: May, 1st, 2020

Flash point (degrees C) Fire extinguishing procedure

Not stated. Cut off the "fuel" source, use foam, dry powder compound fire extinguishing, pay attention to the safety of personnel.

6. Accidental overflow handling measures

High temperature of the material, to avoid fire, Mars, or natural fire, if there is no danger, it is possible to stop and then overflow. With a mop or absorbent material will overflow into the proper container for further processing. Quickly evacuate the contaminated area personnel to the safe area, and to isolate, strictly limit access. Cut off the fire source. Recommended emergency personnel wear self positive pressure respirator, wear protective clothing for firefighters. As far as possible to cut off the source of leakage, prevent access to sewers, flood channel limited space.

Small leakage	Adsorption or absorption of sand or other non combustible materials. Can also be used a lot of water washing, washing water and diluted into the wastewater system.
Large leakage	Construct a barrierpit to contain; covered with foam, reduce the Vapor Hazard. Explosion proof pump transferred to tankexclusive collector, place the disposal of recycling or shipped to the waste disposal.

7. Operation disposal

Closed operation, pay attention to ventilation. Operators must be trained in strict compliance with the operating rules. Stay away from fire, heat, smoking is prohibited in the workplace. Use explosion-proof ventilation system and equipment. To prevent vapor from leaking into the air in the workplace. Avoid contact with oxidizing agent. When transporting light light, to prevent damage to packaging and containers.

Mechanical equipment and tools that are prohibited from using the easy to produce sparks.

At the time of filling, we should pay attention to the velocity of flow (not more than 3m/s), and there is a grounding device to prevent the accumulation of static electricity.

Operating notes

Storage precautions

SDS **Safety Data Sheet**

Away from fire and heat.

The temperature in the warehouse is not more than 45. To prevent direct sunlight. Keep container seal. Should be separate from the oxidant. Storage room lighting, ventilation and other facilities should be used in explosion-proof type, switch located in the warehouse. Equipped with corresponding varieties and quantities of fire equipment. Bottled stacking is not too large, should stay away from the wall, from the top of column, and the necessary fire inspection walkway. Technical measures for fire and explosion prevention in the storage tank. Open tank to summer cooling measures.

Stored in a cool, ventilated warehouse.

8. Exposure control and personal protection

No data is available

Chemical marking symbol

Process control	Production process closed, full ventilation. Provide safe
	shower and eye washing equipment.
	Respiratory system protection
Inhalation	Generally do not need special protection, but the working environment of the air concentration than the general
	situation, can be worn with a filter type gas mask (half mask).
Personal protection	The body is protected against static electricity. Hand
reisonal protection	protective wear gloves.
Its	Smoking is prohibited in the workplace.

9. Physical and chemical properties

Appearance and smell	Colorless transparent, slight solvent odor
The density of 20 ℃, g/cm3	1.622
Dissolve situation	Slightly soluble in water, can be mixed with organic solvents
Critical temperature (°C)	347.1
Critical pressure	9.74(MPa)

10. Stability and chemical	reaction data
Stability	Stable
Risk aggregation	Will not produce
Avoid measures	Strong oxidant, acid, amine, anhydride
Material attention	No
The risk of material after decomposition	No

11. Toxicity data

Acute toxicity:

Genuine leather LD50 Inhalation LC50 Murine vein Township 4 hours (rats inhaled) 40mg/kg 3400ppm

When skin tests are performed on animals, it is found that long-term exposure can cause skin sensitivity, but they are mild or moderate.

In contact with the product, such as the use of water wash should be no big deal, but also to try to avoid prolonged contact or inhalation of this product.

12. Ecological data

Ecological toxicity

No data display

Environmental degradation

No data display

13. Waste information

Printed in CHINA.

Waste method

The empty drum shall be recovered, regenerated or abandoned by the institution of a qualified or executing license, and be careful in any case to make sure that it is in conformity with the national laws and local regulations.

14. Transport informatio	n
Maritime name	Aerosol
Dangerous goods category	Class 2.2 non-flammable liquids
United Nations Code	UN1950
Package type Label	II
Hazardous substances needed to be reported	2
-	Unwanted
Special preparation for transportation	Unwanted
15. Regulation informati	on
EU standard classification	Fuel. The classification of the product is based on all or part of the test data.
	The classification of the product is based on all or part of
classification	The classification of the product is based on all or part of the test data.

Printed in CHINA.

S60; This material and its container must be treated with hazardous waste
S62; Do not induce vomiting after accidental ingestion: seek medical attention immediately and show the container or its logo.

16. Other information

Reference:

Change description: No Other information: The following laws and regulations and standards have made corresponding regulations on the safe use, storage, transportation, loading and unloading, classification and marking of chemicals.: Law Of The People's Republic Of China On Safe Production. (The tenth meeting of the standing committee of the 12th National People's Congress was adopted in Aug., 31th, 2014) The Occupational-Disease-Prevention Law Of The People's Republic Of China. (The 24th meeting of the standing committee of the ninth National People's Congress was adopted in Oct., 27th, 2001) Environmental Protection Law Of The People's Republic Of China. (The 11th meeting of the standing committee of the seventh National People's Congress was adopted in Dec., 26th, 1989.) Regulations On The Safety Management Of Hazardous Chemicals. (The 44th executive meeting of the state council adopted the amendment in Feb., 16th, 2011.) «The safety production license ordinance.» (The 34th executive meeting of the state council adopted in Jan., 7th, 2004.)
