# TECHNICAL DATA SHEET

## HSP Bearing grease 2

### Description:

High speed bearing grease is made from organic thickener, special synthetic oil and added additives such as antioxidants and rust inhibitors. It has good lubricity, mechanical stability, chemical stability and water resistance, and also has good high and low temperature performance, suitable adhesion and longer service life.

### Purpose:

It is suitable for all kinds of small and medium motors, industrial precision instruments, office and household appliances, especially long-term micro bearing lubrication rolling bearings. This product is not recommended for use at low speed and high load.

Products Code	Packings	Capacity
I100294-4L	Can	4L
I100294-18L	Pail	18L
I100294-200L	Durm	200L

### Performance characteristics:

– multi purpose grease, good lubricity, mechanical stability, chemical stability and water resistance, and also have good high and low temperature performance.

### Typical physical properties:

HSP BEARING	NLGI	Coning 1/4	Drop point °C	Appearance
Grease 2	2	64~74	>260	Beige semifluid

### Matters needing attention:

1. Please use it in a suitable temperature range, so as not to cause the grease to freeze or melt.
2. Sealed storage.
