VENUS VOLATILITY STAMPING OIL

Description:

FUKKOL VENUS series volatile punching shear oil is a special oil with fast drying, strong lubrication, excellent rust resistance and cooling power. It can improve the efficiency of high-speed punching machine, greatly improve the smoothness and accuracy of products, and extend the service life of metalworking oil.

FUKKOL VENUS series is not only lubricity, cooling and antirust, but also volatilization quickly after punching, leaving very thin film to protect metal.

Products Code	Packings	Capacity
1100187 (91) -4L	Can	4L
1100187 (91) -18L	Pail	18L
1100187 (91) -200L	Durm	200L

Purpose :

It is typically used for high-speed punching shear, such as chip, emblem motor shell, terminal, air conditioning heat dissipation network, electronic and computer parts, button shaped battery and other hardware parts. The rich high VENUS series is suitable for 1.5MM below, including stainless steel, special steel and beryllium steel, etc.

Performance characteristics :

- Quick drying performance keeps light and will not stick or jam.
- The lubrication is very strong, making the surface bright and smooth.
- Low viscosity and excellent cooling capacity.
- Prolong die life.
- Rust resistance is excellent and the parts are not easy to rust.
- It has high cleanliness and keeps the machine clean.

Typical physical properties

	I	II	III	IV	V
Volatility	High	Medium	High	Medium	Low

Operation Difficulties	Low/Medium	Medium	High	Medium	High
------------------------	------------	--------	------	--------	------

Matters needing attention:

1. Pay attention to sealing and preserving oil products
2. Flammable products, attention to explosion protection
