TECHNICAL DATA SHEET

LUBRICATING SERIES FUKKOL SPRAY GREASE

Description:

Rich high solid lubricant is a multifunctional lubricating grease spray made of high viscosity lithium. It is simple and convenient to use. Rich high solid lubricants can provide a layer of excellent lubricating film and anti-corrosion function. This product can be widely used in some movable guideways, bearings and other places.

Products Code	Packings	Capacity
I12281-500ML	Can.	500ML
I12281-18L	Pail	18L
I12281-200L	Dum.	200L

Performance Characteristics:

- Excellent lubricating film
- Good anticorrosion
- Use of temperature range-15℃~120℃
- It is not easy to flow away when you use it
- It can be used in heavy load, high temperature and humid environment.

Typical Physical Properties:

APPEARANCE	ODOR	FLASH POINT ℃	COPPER CORROSION 100 °C, 3 hrs	DENSITY 25 °C , g/cm ³
Yellow Liquid	Petroleum odor	<-10	1a	0.7~0.75
