TECHNICAL DATA SHEET

FT-2 WATCH SPRING BAR REMOVABLE SOLVENT

Description:

High FT-2 is a lubricating solvent containing environmental extreme pressure agent. Unique extreme pressure agent can make it lubricate in the surface hole without leaving any substance. It is meeting the requirements of the clock factory. The appearance of high FT-2 is not only transparent, but also can be accelerated by rapid evaporation. If the concentration is high, trichloroethylene can also be used to dilute it.

Products Code	Packings	Capacity
I100317-4L	Can	4L
I100317-18L	Pail	18L
I100317-200L	Durm	200L

Purpose:

It can load and unload the watch ears, and there is no residue left on the metal parts.

Performance characteristics:

- Complete volatilization, no residue.
- High transparency and easy to observe.
- Good lubrication.

Typical physical properties :

FT-2	Relative density g/cm ³	40°C Kinematic viscosity mm ² /s	Pour point °C	Flash point °C	Appearance
-	1.20~1.30	-	-	-	Colorless Transparent Liquid

Matters needing attention :

- 1, Keep it sealed and store in a cool place (not in contact with sunlight).
