TECHNICAL DATA SHEET

RUSTKING V

Description:

The high volatile volatile oil is refined by forming an inert film formed on the metal surface or forming a chelating agent with metal ions.

Products Code	Packings	Capacity
I100141-4L	Can	4L
I100141-18L	Pail	18L
I100141-200L	Durm	200L

Purpose :

It is suitable for anticorrosion of silver, lead, zinc, copper and copper alloy.

Typical Physical Properties:

Volatle components %,	Not greater than 99
Oil film species, Tilm Type	Thin oil film
Drying Time(Mins)@20°C	20
The covering area of the dip coating (square meter / liter),	38
Indoor Protection	3 months
Covered Outdoor Protection	Not recommended for use

Matters needing attention:

- 1, this product contains volatile components, pay attention to seal preservation of oil products.
2. This product is extremely flammable, not in contact with open fire
