TECHNICAL DATA SHEET

Special anti scalding cream

Description:

FUKKOL The special anti scalding cream is a heat insulation gel compounded by algae extract and a variety of moisturizing factors. It has good stability, solubility, viscosity and safety.

Purpose:

1. Form a good and stable thermal irreversible gel.
2. Good adhesion, ensuring strong tensile strength and good folding flexibility.
3. It has high moisture absorption and good water retention. Generally, storage conditions may contain a large amount of water.
4. Water soluble products are convenient to use.

Usage:

- Apply anti scalding cream directly on exposed surfaces.

Typical physical properties:

product	Special anti scalding cream
Exterior	Light colored paste
Density 25℃, g/cm ³	1.05
Freezing point(℃)	0℃
Water solubility	Dissolve in water

Matters needing attention:

1. Avoid direct sunlight and store in a place below 50 degrees Celsius.
2. Please keep this product out of reach of children.
