TECHNICAL DATA SHEET

HEAVY DUTY DEGREASER

Brief introduction:

The high and fast heavy duty scavenger is a kind of fast and effective removal of oil, asphalt, dirt, dirt, corrosion, sediment and other indomitable substances, and increase the operating efficiency of equipment. It provides quick and effective degreasing, quick evaporation and no residue. Please be careful when using plastic.

Purpose:

Generating units, engines, motors, gears, cables, electrical valves, mechanical transmission devices, etc.

Advantage:

- Non - conductive, non - corrosive, non - contamination.
- High dielectric strength 37600 volts.
- High definition cleaning force 129KB.
- No first / two ozone layer destruction.

Usage method:

Directly spray on the parts.

Characteristic:

Product	HEAVY DUTY DEGREASER
Appearance	Colorless clarification liquid
Density 25°C, g/cm ³	1.622
Pour point	-22°C
Water solubility	0.015g/100ml (20°C)
Propellant	CO2

Matters needing attention :

1. pressure vessels, avoid direct sunlight, stored at below 49 degrees Celsius.
